**Subject:** RE: Council Version of 1100 Area PAS

**0075300**

Folks,

A little clarification seems in order. The first 3 drafts of the 1100 Area PAS were prepared by USFWS. Several trustees were unhappy with the product and the NRTC 1100 Area PAS workgroup took over the editing of the document. One thing the workgroup did was to shorten the PAS by removing supporting information and putting it into a separate document titled "Information on Hazardous Substance Releases Within the 1100 Area". The version of the PAS that Teri sent out earlier today was the workgroup's shortened version. That file did not contain PAS Appendix 1 (Table 1) or the "Information" document (I assumed everyone still had their copies). The files for those two documents are now attached.

Jamie

Teri,  
I would be glad to assist. You may not have it as an electronic file. The Appendix was produced by USFWS staff located in Spokane under a contract with USDOE on behalf of the Council. You may want to look for a hardcopy in the Council files. Members on the 1100 PAS work group included Geoff Tallent, Chris Burford and Jamie Zeisloft. If you can't find it in the Council file, you will need to ask Jamie. Let me know whether I can be of further assistance.  
Cheers  
Jay

Teri,

There seems to be a section missing here. I believe the Council version of the PAS contained an Appendix with more in depth analysis of some of the waste sites. This appendix is not included in the attachment you forwarded to everyone. Please locate and distribute.
